Making a Kahoot Instructions

1) Go to: https://getkahoot.com/

2) Sign up for a free teacher account

3) Click "Quiz" to make your new Kahoot

4) Your screen should look similar to the one below. For each question, write your question, choose the time limit for how long you want students to have to answer, write in the possible answers, and then mark which answer is correct.
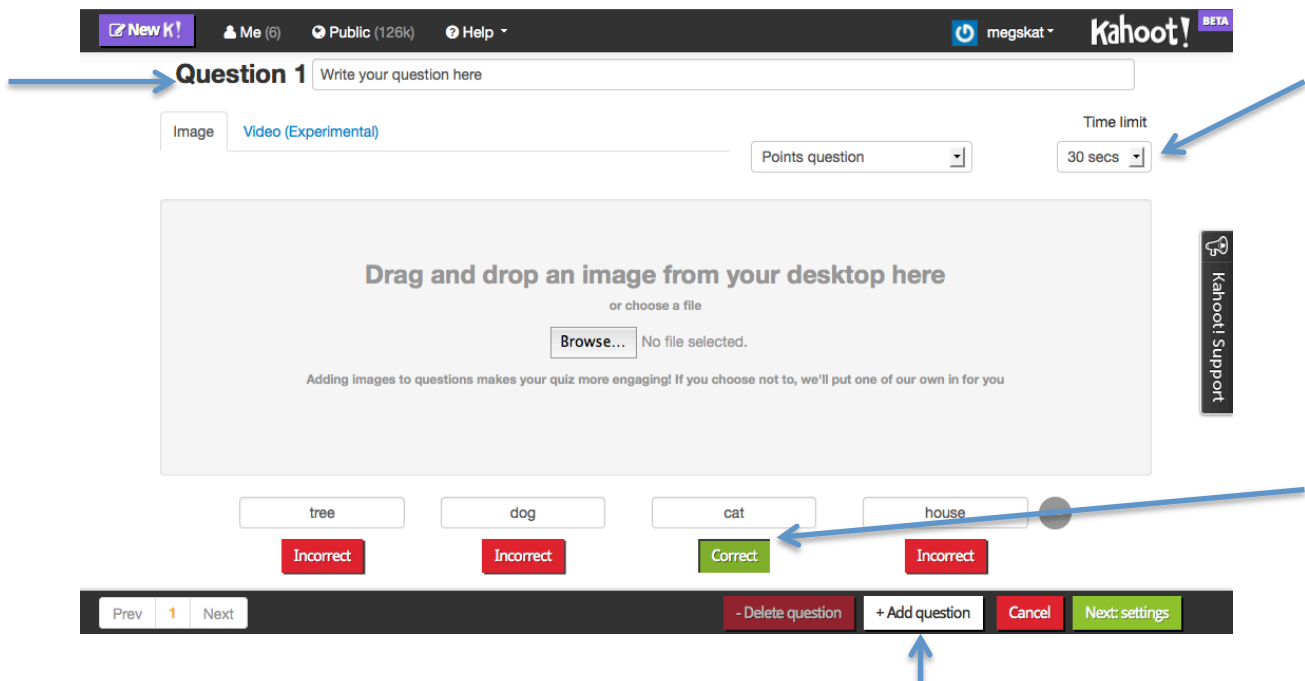

5) When you are finished writing the question, hit "Add question" to move on to writing the next.

6) You can then keep adding your questions until you have them all in.

7) When finished, hit the green "Next settings" button in the bottom right hand corner.

8) This page has you adjust the settings for your Kahoot and choose a primary audience. Under the drop down menu, select "School". Click the green button in the bottom right hand corner that says "Next: cover image"

9) This is an optional page that has you put a cover image to your quiz if you choose. It is not necessary. Select the green "Done" button in the bottom right hand corner when you are finished.
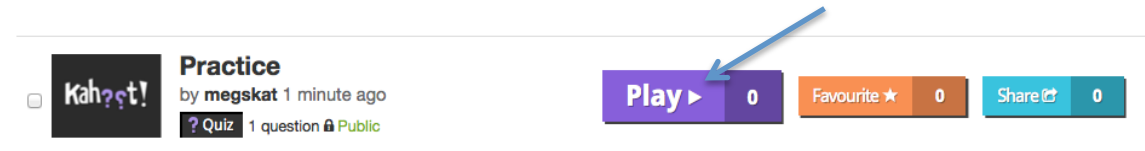

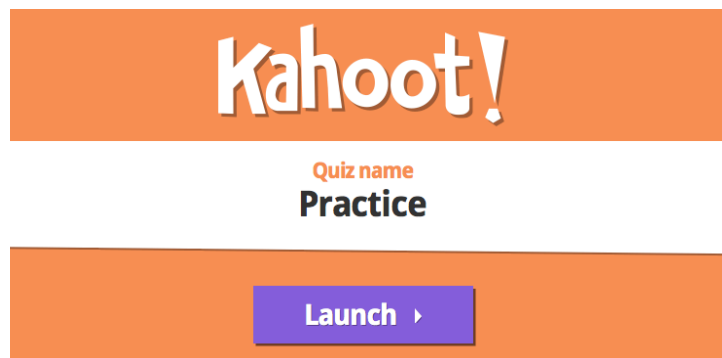

YOUR KAHOOT HAS BEEN MADE! ☺

To Play Your Kahoot

1) In the upper left hand corner of your Kahoot screen, click where it says "Me"
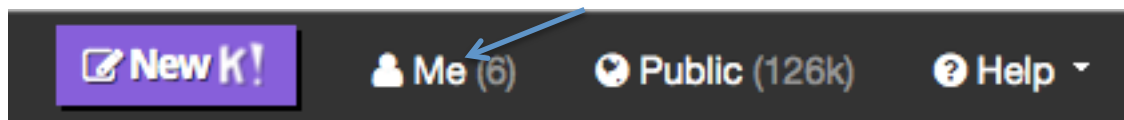

2) You should see a screen that shows the Kahoot Quizzes that you have made. Go to the Kahoot that you want to play and click the purple "Play" button.

3) You will see a screen like the one below. Click the purple "Launch" button.

4) You will then be directed to a screen like the one below. The students should follow the directions and go to the website kahoot.it and put in the game pin. They can play on either a computer or iPad. Once you see all your students connected, hit the purple "Start now" button and have fun playing!
